ADVANCED DISCO

- Our Cutting Edge Advanced Disco comes complete with LED and Laser lighting effects which create a magical dance floor atmosphere, and fits perfectly into any venue.
- We have the experience, enthusiasm and ability to provide the best music for your celebration, which covers every type of music from the 1920's to the present day.
- We also give you the complete freedom to choose your own music playlists from our vast on-line music database.
- We are more than happy to work to your requirements.
- We are perfect for any type of celebration up to 350 guests.
- To add to the fun we can also take photo snaps of your guests and show them later on the projected screen.

The photos are later given to you on CD-R.

- We are also conscious of excessive volume levels, and therefore we constantly control the volume to suit the mood and the occasion.

THE HIGH-LIGHTS

- Our DVD Option is the ideal way to make your wedding celebration totally unique!

We edit high-lights from your wedding and set the sequence to your chosen Bridal Dance.

The completed high-lights are shown on our projected screen as a backdrop during your Bridal Dances.

It's visual impact is enormous, and is well remembered by all your guests!

You'll also receive three Free DVD or Blu-ray copies which will include your fully edited wedding a few weeks later.

KARAOKE

- As an added option, a small built-in Karaoke is projected on to our screen or simply displayed on our DJ computer monitor. It offers over 900 British Hit songs, which are listed on our web site.

We have many other "Bolt-on" options with the Advanced Disco. Please ask or view our web site.

VIDEO & PHOTOS

Do you have video or photographs which you would love to show to your guests throughout your party?

Maybe pictures from your wedding day or photographs of the birthday person when they were younger. You may wish to share a family DVD with your guests.

With our free Video & Photo Presentation service you can share those special moments with all your guests.

Photographs and video can easily be copied to our system, and shown our big screen.

- Perfect for your wedding. Photos taken by your guests during the day can be shown on screen.
- At birthday parties. Instead of scattering printed photographs around the room, we can turn them into a focal point so your guests can view and reminisce.

We even accept digital photographs on the night. Following a quick transfere, they are shown within minutes.

Footage which is on DVD or Blu-ray media should be sent to us a few days prior to your event.
