The Concept

- Our aim is to Motiv-8 and provide FUN for those people who influence your business.
- A great way to keep your teams bonded, and have fun at the same time.
- We keep the format simple: One question per team followed by the answer.
- Our new On-screen electronic scoring system can also handle team names.
- We are totally Bespoke and welcome your ideas on the whole event or individual rounds.

THE SCORES

Powerpoint Quizzes

- Motiv-8 Quiz Events, are a combination of moving and still pictures which form rounds.

Below are just a few samples, we have many others, therefore we recommend calling our office and we'll gladly talk you through them.

There are many bonus points awarded and a lot of interaction, and each round can easily be customised with your own ideas!

The Photo Wall

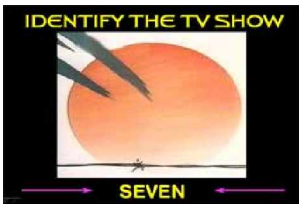

Nine famous people are displayed on the screen in their own box. Then a 15 second piece of music is played, each team in turn guesses to whom the music refers to.

Name The Personality

Each team identifies a famous person on the screen and gives their answer verbally.

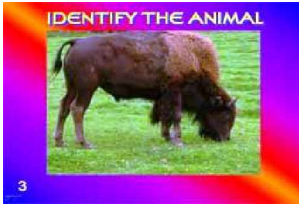

Then it's on to the next team with a fresh photo to identify.

Identify The Show

The teams identify TV program logos. Again, each team will give their answer verbally.

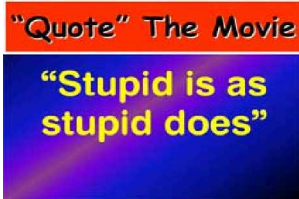

Then it's on to the next team with a fresh logo to identify.

Name The Animal

Great round for multi-cultural attendees. Each team are given a animal or bird to identify.

Bonus points are given for funny answers.

Quote The Movie

A famous movie quotation is given to each team - They have to decide which movie it is taken from.

The most famous quotation is: "I'll Be Back!"

Identify The Show

A TV family is show to each team. The team must announce each family member by their christian name.

The Video Wall

The Video Wall: Nine boxes are displayed on the screen. Our computer then selects a box at random and plays a 15 second clip inside the box from a well known music video.

Like all our quizzes, this quiz can be customised, for example: 1980's music or by genre.

Name The Country

Another multi-cultural round.

Each team will need to identify a country from it's outline. To help, we'll play the National Anthem and show the national flag of each country.

Play Your Cards Right

With the original music score - Each team work together to see if they can turn eight cards by predicting the value of the next card as higher, lower, or the same - Just like on TV.

The computer selects the cards at random.

Countdown

Nine letters are displayed on screen and each team in turn will have 30 seconds as the clock ticks to answer the conundrum. The team to answer their conundrum receive plenty of points.

Now then, what's the answer in our picture?
